

Supporting all your needs

C M M U N I Q U É

Winter 2010

With gift giving season just around the corner, why not surprise someone with a new LOOK for their bathroom? We offer a complete range of bathroom safety products, all manufactured to the highest quality standards, to meet even the most diverse needs.

Seasons Greetings

We wish you and yours the happiest of holiday seasons!

SOLO

The new SOLO rollator is the future of mobility products not only in its sleek new design but also with its unique suspension frame that allows the user to comfortably go over rough or cobbled surfaces while still maintaining stability with all four wheels on the ground. The SOLO is the lightest rollator with a 300lb weight capacity. Its durable frame construction makes it ideal for outdoor use but its light weight and compact frame accommodates indoor use as well.

With a unique handle and brake design that allows for a virtually infinite handle height adjustment of 30.5" to 38.0" all in one handle, the SOLO adjusts in seconds without any cable interference. Just loosen the star shaped bolt and slide the handle up or down - it's just that effortless! There is also an easy-to-read indicator right in the handle tubing for quick and easy reference.

The specially designed folding seat will allow the SOLO to stand independently when folded yet offer the ultimate in comfort not only in size but with soft cushioning when opened. With a removable seat pad, extra large basket, ergonomic handles, integrated front fork design and deluxe 8" wheels, the SOLO is the ideal rollator for the active user who wants to maintain their independence.

CAN'T CLOSE THE DOOR?

We can! The new LOOK series transfer bench offers that very option. Just lift, rest and pull closed the shower curtain or door. Puddles of water on the bathroom floor are a thing of the past, reducing the risk of slipping and falling.

Call your local representative today for a full in-service.
